The Overseas companies that own property in England and Wales dataset (<https://use-land-property-data.service.gov.uk/datasets/ocod>) is a list of freehold or leasehold title registrations held by HM Land Registry, covering England and Wales, where the registered legal owner is an overseas company (a company incorporated outside of the UK).

Titles registered by private individuals, UK companies with an overseas address and charities are excluded for data protection and fraud prevention purposes.

This dataset used to be called Overseas Companies Ownership Data (OCOD).
